Ok. I'll use a different method on my end. They should all see a note giving them access shortly.

Doesn't seem to have worked. I tried again using a different access point.

Ann – you should be able to share the files with the people you requested. The process for enabling sharing was a bit different for your requests, so I'm not entirely sure they're on the list. You may want to check to make sure.

Andy

Ann – I've shared the folder with all the chapter outlines with you. Feel free to pass them along to others in NCEE, or let me know the specific people you'd like me to share the files with.

Hi Andy,

Folks in NCEE would be interested in seeing the chapters on:

- Near-Term Adaptation Needs and Increased Resiliency
- Mitigation: Avoiding and Reducing Long-Term Risks

If there are any other chapters that include a discussion of economics or economic impacts we'd be interested in seeing those as well.

Thanks,

Ann

Subject: NCA4 Chapter outlines for review

All:

The chapter outlines for the fourth National Climate Assessment (NCA4) have been provided to each of the USGCRP agencies for review and comment. Each of the 26 outlines is 3-4 pages, although a few author teams have been overachievers in this regard. Please let me know if you are interested in reviewing and providing comments to me on any or all of the outlines. If you are interested, I will provide access to the outlines in a OneDrive folder.

Review comments are due to me by **COB February 1**. I will consolidate comments and enter into the USGCRP comment system.

Please do not forward this email to anyone who is not an EPA employee.

Andy

This is the list of chapters (note that there is no outline for the Northern Plains chapter):

Water

Energy

Land Cover and Land Use Changes

Forests

Ecosystems, Ecosystem Services, and Biodiversity

Coastal Effects

Oceans and Marine Resources

Agriculture and Rural Communities

Built Environment, Urban Systems, and Cities

Transportation

Air Quality

Human Health

Tribal and Indigenous Communities

North American and Other International Effects

Sectoral Interdependencies and Compounding Stressors: The Science of Complex Systems

Northeast

Southeast

US Caribbean

Midwest

Northern Great Plains

Southern Great Plains

Northwest

Southwest

Alaska

Hawai'i and Pacific Islands

Near-Term Adaptation Needs and Increased Resiliency

Mitigation: Avoiding and Reducing Long-Term Risks
